

# Rhythm notation

To make music notation easier to read, music is structured into bars.

Barlines divide the music into bars.

Using a ruler, draw some barlines on this staff to divide it into bars.

At the start of the music, the time signature tells musicians how many beats are in each bar.

$\frac{4}{4}$  This time signature tells us that there are four beats in every bar.

$\frac{4}{4}$																			
$\frac{4}{4}$																			

Beats : 1 2 3 4 1 2 3 4 1 2 3 4 1 2 3 4

Draw a time signature on the staff below, and then write in counts for the beats below it:
